

The New Advantages of the Safety Advantage Portal

Discover more resources on “Safety Advantage,” our Online Risk Management Portal for our Policyholders!

We prioritize the success of our valued policyholders and the need for immediate access to relevant safety and training materials. That is why we are excited to announce a recent update to our online portal with over 5,000 pieces of content and resources to help meet safety, regulatory and training needs.

Our free online platform provides our policyholders with 24/7 access to a diverse selection of value-added resources and tools, facilitating risk mitigation, loss prevention, and compliance maintenance.

Some significant features of the portal include:

- **Risk Management Resource Library:** Browse through our top-quality downloadable articles, brochures, forms, white papers and reports to stay ahead of the curve
- **Industry Specific Content:** Empower your business with expert insights on critical topics such as Operational Threats, Compliance, Project Support, Employee Safety and more!
- **Robust Resource Tools:** Elevate your safety program with our tools that are designed to streamline processes, reduce risk, and ensure compliance with the latest regulations
- **HR Resources:** Discover a wealth of helpful topics such as Safety Benchmarking, Handbook Development, Job Description Builder, HR Self-Assessment tools, and more, that will help tackle many challenges
- **Berkley University:** Unlock your team’s potential with our on-demand, interactive Learning Management System (LMS) that will empower your employees to master new skills and be more productive. Over 180 training courses available

“ This portal is a great resource for the management of my business. I was able to get in compliance and put a safety program in place with ease.”
